

Connecting Vallejo: The Bay Trail – Vine Trail Study

Be part of the planning for the Bay Trail and Vine Trail. A study is underway to determine the preferred trail routes between existing trails in American Canyon and existing trails along White Slough and on the Vallejo waterfront.

The Bay Trail, when complete, will consist of a 500-mile continuous corridor around the San Francisco Bay passing through almost 50 cities and nine counties. The Vine Trail, when finished, will begin at the Ferry Terminal and continue north for 47 miles, through world-renowned vineyards and towns of Napa Valley, to its northern gateway in Calistoga.

Segments of both trails are open and popular, with active use by pedestrians and cyclists. Some trail “gaps” are under study to determine the preferred alignments to complete the trail through Vallejo. The focus of this current study is on trail routing – which may be different for the Bay Trail and the Vine Trail – through two areas of Vallejo shown on the attached map. The map illustrates existing and potential routes. The study will consider environmental and engineering feasibility, cost, public support and other factors to determine the appropriate alignment(s).

How you can get involved:

- » **Monday May 12, 6 to 8 PM:** Attend the initial public workshop at the City of Vallejo Conference Center on Mare Island – 375 G Street (on the left just after the bridge) to learn more about the study and to provide information and ideas.
- » Mark your calendar for these upcoming events (more info will be provided soon):
 - Saturday, June 28, 10 AM to 4 PM:** Participate in a walking and cycling field review of the alternative routes, with a tour of the northern options starting at 10 AM and the southern alternatives at 1 PM.
 - Wednesday, August 6, 6 to 8 PM:** Attend a public meeting at a site yet to be determined to review the preliminary study recommendations and to offer your thoughts.
- » Visit the project information page on the Solano Transportation Authority web site: <http://tiny.cc/bayvinetrail>
- » Send comments or questions or ask to receive email updates about the study and upcoming meetings to Sofia Recalde, Associate Planner, Solano Transportation Authority, (707) 399-3230, srecalde@sta-snci.com

Existing and Potential Trails and Destinations
